DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-20 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Applicants own admissions of what is known in the art or Chen'680.

The amendments and arguments filled by applicants in their last response have been fully considered. Applicants have mainly argued that the prior art teaches a minimum two coating steps. In response, the examiner submits that the claims remain unpatentable in view of the new grounds of rejections. Also, the examiner believes that the claimed one step process is inherently included in the process of the prior art. In addition, it is believed that such single step process would have been obvious modification of the disclosed prior art methods as an effective simplification of such methods and effective cost reduction.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Leszek B. Kiliman whose telephone number is 571-272-1509. The examiner can normally be reached on M-T, 6.30-5.00.
